Profile Summary

Motivated Python Developer with strong knowledge of Python programming, data structures, and basic web development. Python Developer with hands-on experience in academic and mini projects, including data analysis and basic machine learning. Passionate about learning new technologies and building scalable, user-friendly applications.

Professional Skill

- Python Programming
- SQL Programming
- Git & GitHub
- Web Developement

Technical Skills

- Excel
- MS Power Point
- MS Word
- Figma

Education

B.E Computer Science and Engineering

SKP Engineering College ,Tamilnadu , India

XII Std

Maharishi Higher Secondary school

Experience

- AI & Python Developer – Academic / Mini Projects
- Developed AI-based applications including a CyberGuard AI Assistant with phishing detection.
- Built a Home Décor AI Assistant and a Movie Recommendation System using Python and ML concepts.
- Gained hands-on experience in data processing, model logic, and problem-solving.

PROJECTS

MOVIE RECOMMENDATION SYSTEM - Built using Python

Developed a movie recommendation system using Python and machine learning techniques to provide personalized movie suggestions based on user interests and rating.

HOME DECOR ASSISTANT - Built using Python

Developed an AI-based home décor assistant that provides personalized décor recommendations based on user preferences. The system applies intelligent decision logic to enhance user experience .

CYBERGAURD AI - Built using Python

Developed a CyberGuard AI assistant that detects phishing attempts and monitors potential cybersecurity threats using AI-driven analysis. The system analyzes suspicious emails and links to alert and enhance overall security.

CERTIFICATES
